

## Biography

Amy

Special ED

Gray

Greetings! My name is Amy Gray and very pleased to be part of the Scholar Academy team. I began teaching in Utah in 2007, Grades 6-9, homeroom and Social Studies for the upper grades. I then pursued my passion for teaching and travel by becoming an English Teacher overseas. I first taught 8th Grade boys, then moved to 4th Grade and absolutely loved being in an Elementary setting. This experience fostered a great amount of reflection and finding new and creative ways to teach and learn. Since returning in October 2015, I joined Scholar Academy as a Substitute Teacher, then SPED Paraprofessional, and now a SPED Teacher. I am currently attending WGU to earn a Masters of Science in Special Education. I adore learning and view challenges as a means to grow.
