

Biography

5th Grade

WELCOME TO SCHOLAR ACADEMY

Hello Scholar Academy families! My name is Courtney Harder. I grew up on a potato farm in Shelley, Idaho. I love the hard work ethic that farm life instilled in me. I have one older and one younger brother. I grew up loving water sports, because our farm is located on the Snake River. I enjoy ALL outdoor activities, especially skiing. I'm thrilled to be living so close to so many amazing ski resorts!

I am entering into my fifth year of teaching. I received my B.S. degree in Education from the University of Idaho. While in college I was fortunate enough to study abroad in Alicante, Spain, where I learned Spanish and tutored English as a second language.

I often get asked, "why do you teach," and my response is simple. I love it!!! Teaching is by far the most exciting and rewarding job I've ever had. I love this age group; they are full of energy and curiosity. I love introducing my students to new ideas and helping them form their own educated opinions about the world around them.

I look forward to working with you and your child throughout this upcoming school year!
