Hello. I'm Matt Rowley and I'm thrilled to be working at Scholar Academy.

A little about me: I am a native of Utah Valley, where I received my degree in Elementary Ed from Utah Valley University. We moved our family to Tooele about ten years ago, and my wife and I have been teaching here ever since. I have a lot of interests, including art, writing, music, and cooking. I can also quote many a great movie line and have been known to play Minecraft. I love working with kids and helping them learn foundational skills that they will carry through life!
