Special ED

Hi my name is Mrs. Brady and I am really looking forward to working with the Scholar Team this year helping struggling students succeed. I am the mother of five wonderful and grown-up children, four daughters and one son, and the grandmother to two incredibly delightful grandsons. I began my love of Special Education as a volunteer in 1997 and became a Par-educator in 1999. I began teaching K-6 Resource in 2004 on a Letter of Authorization in Alpine School District and completed a dual Special Education/ESL licensure program at BYU in 2006. In 2010 I received a Utah Elementary Math Endorsement, also from BYU. I have spent the past four years teaching kindergarten through fourth grade resource students at Hillside Elementary in West Valley. I am so excited to watch Scholar Academy being built from my bedroom window and am thrilled to be able to meet and work with the students, parents, and teachers at Scholar Academy!
