

Biography

3rd Grade

Hello! I'm Ms. Blackburn. I am so excited to be spending my second year of teaching at Scholar Academy! I have taught first grade, which I loved teaching therefore I am sure I will adore the third grade! I was born and raised in a small town in central Utah called Aurora its located between Salina and Richfield. I come from a family of four, I am the only girl. I have two beautiful daughters, they are all grown, my youngest is 19 she will be majoring in History at SUU in Cedar City. My oldest is 21 she is majoring in Radiology at Weber State. I am a very proud mom! I also have a very very handsome grandson he is very smart 2 year old and he calls me Nana! I am so blessed to have my children and grandson in my life, I wouldn't trade them for the world!

I graduated from Liberty University in Lynchburg, VA with a Bachelor of Science in Elementary Education in 2008. I also started on my Masters of Art in Teaching. I never pursued my dream of teaching until last year, I was focused on raising my girls as a single mom of 19 years, I just relocated to Tooele to start my new chapter in my life with my wonderful boyfriend, eventually my husband and a wonderful opportunity to teach 3rd graders in my growing career as a dedicated teacher! I look forward to teaching at Scholar Academy!

In the summer time I love working in the yard enjoying the sunshine. There is always room for camping, fishing and hiking. I love to travel to see new places, love to see the beauty every where life takes me. Love spending time with family and friends.
