Computers

Hello! My name is Todd Crane. I am excited to start my second year in the Scholar Academy Computer Lab. I completed a Bachelor's Degree in Information Technology. I have also started working on my second Bachelors, this time in Elementary Education.

I grew up in West Jordan and graduated from West Jordan High in 2001. My family had a small farm with chicken, ducks, goats, cows, horses, rabbits, and a vegetable garden. In 2002-2003 I served an LDS Mission to the Philippines where I learned to speak Cebuano, Illongo, Kinaray-a, and Capiz-non.

I married in 2005 to my beautiful, Jessica, and have five energetic sons. I also dedicated nine years to the US Air Force, during that time I learned Korean, and spent 14 months in Afghanistan. I officially moved to Tooele on October 31 2015.

Some of my hobbies are: fishing, cooking, making up new recipes, and camping with my family.

I also volunteer as the Bear Den leader for my local Cub Scout Pack here in Tooele.
